

YOU ARE INVITED!

What: **Discussion on Climate Action**

When: **Saturday, October 5, 2019, 10 AM - 12 PM**

Where: **Minnetonka City Council Chambers**

Minnetonka Community Center
14600 Minnetonka Boulevard
Minnetonka MN 55345 ([map](#))

Please join us and our esteemed panel for a discussion on the scientific evidence surrounding the rise in human-caused atmospheric greenhouse gases, efforts toward mitigation and capturing carbon (*carbon sequestration*), while focusing on the transportation and energy sectors.

Moderator: **Stefan Peterson** Senate District 48 DFL Resource, Support, and Education Committee

The Panel: **Scot Adams** is a member of [Citizens Climate Lobby](#) who, with other CCL volunteers, met recently with 529 members of Congress to press for support of [H.R. 763](#), Energy Innovation and Carbon Dividend Act. In addition, he is Professor of Mathematics in the school of Mathematics at the University of Minnesota.

Sohan Dass is the Director of Solar + Energy Storage at [EVS](#) (Engineering, Surveying, Energy) in Eden Prairie. He has 10 years experience in the Solar energy field and oversees design teams with projects across the U.S.

J. Drake Hamilton is [Fresh Energy](#)'s Science and Policy Director. Her expertise includes scientific analysis and policy development that will maximize economic opportunities in addressing global warming solutions. She was a witness to the 2015 Paris Agreement.

Jukka Kukkonen is founder of [PlugInConnect](#), a Minnesota based company focused on consulting and training in electric vehicle technology, charging infrastructure and related economic opportunities.
