# MATH 8307 <br> Additional Problems for Homework Assignment \#2 <br> Due 02/07 <br> INSTRUCTOR: Anar Akhmedov 

1. Let $\mathbf{f}: \mathbf{S}^{\mathbf{2 n}} \rightarrow \mathbf{C P} \mathbf{P}^{\mathbf{n}}$ be a continuous map. Compute the degree of $\mathbf{f}$.
2. Compute the cohomology ring of $\mathbf{K} \bigvee \mathbf{T}^{\mathbf{2}}$ with $\mathbf{Z}_{\mathbf{2}}$ coefficents, where $\mathbf{K}$ is the Klein bottle.
