Corrections to

---

Proposition 3.5, the last formula should read \((e, z) \in \mathcal{B}\).

In (9.4) and (9.5), \(\mathcal{V}^n\) should be \(\mathcal{S}^n\).

The second formula in (16.4) should be \(\alpha = u_{xx}^{-1/3}\).

The denominator in formula (16.5) should be corrected:

\[
\kappa = \frac{3u_{xx}u_{xxxx} - 5u_{xxx}^2}{3u_{xx}^{8/3}}.
\]  (16.5)
